PRAYER

I desire neither earthly kingdom, nor even freedom from birth and death.

I desire only the deliverance from grief of all those afflicted by misery.

Oh Lord, lead us from the unreal to the real; from darkness to light; from death to immortality. Bless our efforts and guide us towards success, keep our eyes focused on what really matters.

May there be peace on earth.

Keep us humble and faithful in all what we do.

May your wisdom spread peace all through the world.

Pharmacist's Oath

- I swear by the code of ethics of Pharmacy Council of India, in relation to the community and shall act as an integral part of health care team.
- I shall uphold the laws and standards governing my profession.
- I shall strive to perfect and enlarge my knowledge to contribute to the advancement of pharmacy and public health.
- I shall follow the system which I consider best for Pharmaceutical care and counseling of patients.
- I shall endeavor to discover and manufacture drugs of quality to alleviate sufferings of humanity.
- I shall hold in confidence the knowledge gained about the patients in connection with my professional practice and never divulge unless compelled to do so by the law.
- I shall associate with organizations having their objectives for betterment of the profession of Pharmacy and make contribution to carry out the work of those organizations.
- While I continue to keep this oath unviolated, may it be granted to me to enjoy life and the practice of pharmacy respected by all, at all times !
- Should I trespass and violate this oath, may the reverse be my lot !

CODE OF ETHICS FOR PHARMACISTS

- A pharmacist respects the covenantal relationship between the patient and pharmacist.
- A pharmacist promotes the good of every patient in a caring, compassionate, and confidential manner
- A pharmacist respects the autonomy and dignity of each patient
- A pharmacist acts with honesty and integrity in professional relationships
- A pharmacist maintains professional competence
- A pharmacist respects the values and abilities of colleagues and other health professionals.
- A pharmacist serves individual, community, and societal needs
- A pharmacist seeks justice in the distribution of health resources

I am delighted to extend my congratulations to the Kerala Pharmacy Graduates Association (KPGA) on organizing the 2nd Kerala Pharmaceutical Congress (KPC-2025). Since its formation in 1977, KPGA has been a strong voice for pharmacy graduates in Kerala, contributing greatly to the growth of the pharmacy profession in various areas like industry, healthcare, and education. I appreciate their efforts in promoting the overall growth of the pharmacy profession in the state of Kerala. This year's theme, "AI and Emerging Technologies Transforming Pharmacy Education and Industry," is highly relevant in today's fast-changing world. The theme underscores the importance of embracing these technologies to drive progress and highlights the pivotal role pharmacy professionals play in this transformation. Emerging technologies, particularly artificial intelligence (AI), are revolutionizing every aspect of the pharmaceutical and healthcare sectors. AI-driven tools are enabling more efficient drug discovery, optimizing manufacturing processes, and enhancing personalized medicine, making treatments more effective and accessible

to patients. In pharmacy practice, technologies like AI-powered decision support systems are aiding pharmacists in delivering better care through accurate prescriptions and real-time patient monitoring. Pharmacy Council of India is emphasizing the inclusion of AI and advanced technologies in education as well as training programs, ensuring pharmacy professionals from our country become the front runners in the global transformation. I am sure that the event scheduled to be held at Caritas College of Pharmacy, Kottayam will be an exciting platform for the stakeholders of the pharmacy profession to learn, share ideas, and connect. With engaging seminars, expert talks, discussions, and presentations, KPC-2025 shall inspire innovation and collaboration. I applaud KPGA for their dedication and efforts in organizing this important event. I am confident it will help shape the future of pharmacy in Kerala and beyond. Wishing KPC-2025 great success and my best wishes to everyone involved.

Sincerely,

Dr. Montu Kumar Patel
President, Pharmacy Council of India

Message

It is my privilege to extend my best wishes to the Kerala Pharmacy Graduates Association on the occasion of the Kerala Pharmacy Conference (KPC) 2025, scheduled to be held at Caritas College of Pharmacy on February 21st and 22nd.

Pharmacy professionals play a crucial role in shaping the healthcare landscape, and platforms like KPC serve as a catalyst for knowledge sharing, innovation, and professional growth. This conference is an excellent opportunity to discuss emerging trends, share research, and strengthen the commitment to delivering quality healthcare.

I commend the organizers for their dedication to advancing the profession and fostering collaboration among pharmacy graduates, academicians, and practitioners. I am confident that KPC 2025 will inspire participants and contribute significantly to the progress of healthcare education and practice.

Wishing the event resounding success!

Prof. (Dr.) Mohanan Kunnummal
Vice Chancellor

MESSAGE

It is with great joy and pride that I share my greetings in this souvenir for the Kerala Pharmaceutical Congress (KPC) 2025. This landmark gathering, organized by the Kerala Pharmacy Graduates Association (KPGA), is a significant occasion for pharmacy professionals, educators, students, and industry leaders to come together to exchange ideas and shape the future of our field.

The Kerala Pharmacy Graduates Association (KPGA), established in 1977, is the oldest professional organization of its kind in the state. For decades, KPGA has been a voice for pharmacy graduates and a guiding force for advancing the profession. It has brought together members from diverse areas, including industry, community and hospital pharmacy, education, and regulation, to build a stronger and more united pharmaceutical community.

The second Kerala Pharmaceutical Congress, hosted at Caritas College of Pharmacy, Kottayam, on February 21st and 22nd, focuses on the theme “AI and Emerging Technologies Transforming Pharmacy and Industry.” The rapid advancements in artificial intelligence, automation, and other emerging technologies are reshaping how we approach pharmacy practice, patient care, and pharmaceutical manufacturing. This theme highlights the need to embrace these innovations while ensuring they are used effectively to benefit patients and the profession as a whole.

I extend my best wishes to all participants and organizers of KPC 2025. Let this congress be a space for learning, collaboration, and inspiration, as we work together to navigate the changes in our field and build a brighter future for pharmacy.

Warm regards,

Dr. Rajasree R.S

Dean-Faculty of Pharmaceutical Sciences, KUHS

It is with great pride and enthusiasm that I extend my heartfelt congratulations to the Kerala Pharmacy Graduates Association for organizing the Kerala Pharmaceutical Congress (KPC) 2025, scheduled to be held at Caritas College of Pharmacy on February 21st and 22nd.

This conference is a significant initiative to bring together pharmacy professionals, educators, and students to explore innovations, address challenges, and exchange knowledge in the field of pharmacy. Such events are essential for strengthening the role of pharmacists as integral members of the healthcare system and for fostering professional excellence.

I applaud the organizers for their commitment to enhancing the scope and quality of pharmacy practice in Kerala. May KPC 2025 be a memorable and enriching experience for all participants, paving the way for future advancements in the profession.

Wishing the event great success!

MESSAGE

DRUGS CONTROL DEPARTMENT
GOVERNMENT OF KERALA

Message from the Drugs Controller, Kerala State

It gives me immense pleasure to extend my warm greetings to the Kerala Pharmacy Graduates Association on the occasion of the Kerala Pharmaceutical Congress (KPC) 2025, to be held at Caritas College of Pharmacy on February 21st and 22nd.

This event is a testament to the commitment of pharmacy professionals to advancing knowledge, fostering innovation, and promoting excellence in healthcare. Such gatherings play a vital role in shaping the future of pharmacy practice, encouraging collaboration, and addressing emerging challenges in the field.

I congratulate the organizers for their efforts in bringing together experts, academicians, and practitioners, and I am confident that this conference will inspire meaningful discussions and impactful outcomes.

Wishing KPC 2025 grand success!

MESSAGE

30-11-2024

It is with great pride and enthusiasm that I welcome you all to the Kerala Pharmacy Congress (KPC) 2025, organized by the Kerala Pharmacy Graduates Association, to be held at Caritas College of Pharmacy on February 21st and 22nd.

The theme of this year's conference, "AI and Emerging Technologies: Transforming Pharmaceutical Education and Industry," reflects the profound changes shaping our profession. As artificial intelligence and cutting-edge technologies redefine healthcare and pharmaceutical practices, it is essential for us to adapt, innovate, and harness these advancements for the betterment of society.

KPC 2025 aims to provide a platform for students, professionals, and academicians to explore these transformative developments, exchange ideas, and build collaborations that will drive progress in pharmaceutical education and industry.

I extend my heartfelt thanks to all the participants, speakers, and organizers for their dedication and commitment to making this event a success. Let us work together to envision and create a brighter future for pharmacy.

Wishing everyone a rewarding and inspiring congress!

 **MESSAGE**

06-12-2024

It is with immense pride and enthusiasm that we present the souvenir of the Kerala Pharmaceutical Congress 2025, a platform that brings together visionary minds, thought leaders, and dedicated professionals in the field of pharmacy.

This year's theme, 'AI and Emerging Technologies: Transforming Pharmacy Education and Industry,' reflects our commitment to embracing innovation and advancing the frontiers of pharmaceutical sciences. As we navigate the transformative impact of artificial intelligence and emerging technologies, this congress stands as a beacon of progress, fostering collaboration and inspiring future generations of pharmacy professionals.

I extend my heartfelt gratitude to the organizing committee, our esteemed sponsors, KPGA members, Caritas College of Pharmacy and all participants who have worked tirelessly to make this event a grand success. Your collective efforts are pivotal in shaping the future of pharmacy and ensuring its relevance in a rapidly evolving world.

Let this souvenir serve as a lasting memory of the knowledge shared, ideas exchanged, and relationships strengthened during this remarkable event. Together, let us continue to innovate, educate, and transform for a healthier tomorrow.

REMEMBERING Dr. MAJEED....

MAJEED means Noble and Glory in Arabic. Here we had a person named MAJEED in the domain of Pharmacy. Our Majeed was by all means justifying the Arabic meaning of Majeed, i.e, he was noble and glorious. An article on Dr. Muhammed Majeed is like a drop of water in the sea only. Perhaps only an epic can cover the writing about Majeed Sir.

Let me, at the outset, thank KPGA for entrusting this noble task. I have known Dr. Majeed from 1972 onwards, when he was in his final year of B.Pharm, and I was in my first year of B.Pharm. We barely met. Whenever we met, I experienced the warmth of his friendship. The last time I met Dr. Majeed was in 2016, during a marriage function in Bengaluru.

I shall start the remembrance on Dr. Majeed, right from his childhood days. Dr. Majeed was born on 25th September 1948.

Personally, my memory of Dr. Majeed goes back to 1972, as contemporaries in college, where he was in his final year of B. Pharm and I was in my first year of B. Pharm.

I vividly remember that he was popular and had endeared himself to the student fraternity. Dr. Majeed used to call me "Unni", which only my family members used to address. Thus, in a way, I grew to consider him as someone very dear to me.

SHAPING OF A BRIGHT MIND

Born in Karunagapally on 25 September 1948, as a young lad, he had his schooling in Craven LMS High School, Kollam, and did his Pre-University Course at Fatima Mata National College, Kollam. Hailing from a middle class family in Kollam, young Majeed was one of the six children. As luck would have it, he lost his father when he was 12 years old, and it was his

mother, Fatima, who instilled in him the urge and the desire to strive to acquire a good education. “There is no substitute for hard work,” – was the guiding idea in his pursuit of acquiring education, and scaling great heights in his area of specialisation. Majeed, as a student had the habit of listening rather than reading. His friends in college share how during the examinations, Majeed would spend time with them, paying attention to what they read, and he succeeded in the examinations!! After completing his B.Pharm, in 1973, he did a brief stint as a teacher in the Pharmacy College. While securing a job was in the minds of most fresh graduates in Pharmacy, Dr. Majeed had thought of pursuing research on lemon grass oil to manufacture Vitamin A in collaboration with the Pharmaceutical Company, Roche. But, somehow, he could not pursue it. While many seek jobs in the private and Government sectors, Dr. Majeed had his own plans. In 1975, with just 8 dollars in his pocket, young Majeed moved to the United States. He continued his education and secured a Masters Degree in Industrial Pharmacy from Long Island University, NY. He then went on to complete a Doctorate in the subject from St. John’s University, NY, in the year 1986.

THE MAN AND HIS VISION

With his qualifications, Dr. Majeed worked in senior positions in industry and research organizations. He worked at Pfizer USA, Carter Wallace, and as Head of Research at Paco Pharmaceuticals, New Jersey. Dr. Majeed had set goals for himself and was well aware that he had to pursue his childhood vision of using the Science he loved for the well-being of humanity. Unperturbed by the reluctance of developed countries and realizing the potential of India’s Ayurvedic system of medicine, Dr. Majeed anticipated an untapped market opportunity to provide Ayurveda-based products to the developed world. He focused on combining the ancient knowledge of Ayurveda with modern science and developed evidence-based pinlnanovt atiporno,products through standardization, and value addition at every step. As the first phase of his taking fresh strides, Dr. Majeed started the Sabinsa Corporation in New Jersey in 1988. Dr. Majeed wisely opted to manufacture and market Ayurveda ingredients backed by modern science at a time when Americans were turning towards “Natural Health Care Products”. Subsequently he pioneered a unique concept in the US called “SABINSA ON WHEELS “ to attract dietary supplement companies to the products of the company. Production and innovation went hand-in-hand. As part of the second phase of realising his dream vision – Scientific Innovation – Dr. Majeed set up Sami Labs in Bengaluru, India, in 1991. “Sami-Sabinsa Group Limited (formerly Sami Labs Ltd) is a pioneer and global leader in health science and is a leading producer of nutraceuticals, cosmaceuticals, standardized herbal extracts, fine chemicals, specialty chemicals, probiotics and enzymes.” Today, SAMI-SABINSA GROUP LIMITED employs over 1400 staff including 120 scientists. Research on the physiological effects of herbs and mechanisms of action of herbal drugs are studied in depth by the team and as a result, the company markets over 120 Standardised Phyto extracts to 18 countries.

DR. MAJEED – LEADS THE WAY IN SECURING PATENTS

Over the years, Dr. Majeed was granted more than 500 US International patents, which is an exemplary achievement by anyone in the world, and he was popularly known as the “King of Patents”. Even as he established himself in the industry abroad, he continued to be anchored to India and this was evident in his diversification. SAMI SPICES, a division of SAMI-SABINSA GROUP LIMITED, was set up in Kochi in 1999. In the same year Organic aromatics was launched to serve the flavor and fragrance Industry.

The next on the anvil was Sabinsa Cosmetics established in 2001.

Not one to sit back on his laurels, the businessman in Dr. Majeed entered the direct-to-consumer business in 2010 and now offers 20 products, ranging from weight management, joint health, bone strength, detox supplements, besides skincare and cosmetics.

ACHIEVEMENTS, AWARDS AND HONOURS

- SAMI- SABINSA GROUP LIMITED won the Thomas Alva Edison Patent Award instituted by the Research and Development Council, New Jersey, three times .
- National Award for Quality and Innovation by the President of India in 1995, 1997 and 2008.
- The prestigious Scientific and Industrial Research Award in 2002.
- An outstanding achievement was his receiving the Ellis Island Medal of Honor given to distinguished Americans in 2004 in recognition of his leadership, commitment, and service to the American Community
- The Confederation of Indian Industry recognized Sami-Sabinsa Group with the Best Patent Portfolio Award in SME for the year 2020.
- For his efforts in developing Nutraceuticals, he was inducted into the New Hope Network Hall of Legends in 2016.
- He was chosen as the Nutra Champion at the Nutra Ingredients Award ceremony in Geneva in 2018.
- In the year 2021, the Associated Chambers of Commerce and Industry of India conferred the “Father of Indian Nutraceuticals Industry”: on Dr. Majeed
- He has been named the Legend of the Millennium in the Nutraceutical Industry in 2022.

DR. MAJEED’S BONDS WITH KPGA

Dr. Majeed was always a part and parcel of KPGA. Whenever we approached him, be it for Association, Medical or Pharmacy Colleges in Kerala, or for the Alumni Association, he responded very positively by returning a question “how much do you want”. He had extended financial support liberally to all the professional bodies. We, the Pharmacists of KPGA, salute the warrior, Dr. Majeed, for his yeoman services inside and outside India. The Pharmacists in Kerala are aghast over the sudden demise of Dr. Majeed. He has left a vacuum that cannot easily be filled. But we pin hopes in the new realm headed by Dr. Anju Majeed to carry the torch forward to achieve the goals set by Dr. Majeed. We, the Pharmacy fraternity, are proud of Dr. Majeed, and I have no doubt he is the Doyen of Doyens in the profession of Pharmacy--India and abroad. Dr. Majeed had proved how a Pharmacist could excel in his or her profession by working hard, as Dr. Majeed stated on many occasions that “Hardwork and Commitment” were the secret to his success. He made his own START UP venture even before the software technologists started it recently.

We, the pharmacy graduates of Kerala, deeply mourn the demise of our great pharmacist, philanthropist and benefactor Dr. Majeed. We take this occasion to bid ADIEU to our beloved Dr. Muhammed Majeed ..

Adv. Unnikrishna Panicker MK,
Former Director, School of Medical
Education, MG University, Kottayam
